

The following three sonnets are composed for entertainment and dopamine release. You should replace each question mark except one with an alphanumeric character. Some answers are case-sensitive: do not confuse upper and lower case. Example: To the question 1000 meters = ?? the answer km is correct, Km, kM or KM are not. Sometimes there is a covert question behind the overt one. Finding the right answer does not imply that you know the hidden question. For the correct spelling of the answer you should sometimes find the covert question. You may use all information available on the Internet (you will need it). Do not discuss the items with others or publish this copyrighted material on any medium. If you send me your answers, I will tell you your raw score. You may only make one submission. Have fun and some EYPHKA experience.

- 1 AUQLUE DIGITS ??
- 2 AUQLUE SYLLABLES ???
- 3 AUQLUE CARDINAL ?????-???
